

Hi Drummers,

Thanks for checking out this quick lesson on this fun chop. The two simple elements of this chop are Bass, Right, Left (represented by BRL) and Right, Left, Left (represented by RLL). Combine and move them any way you like. Then move them around your kit. Below I've written some combos but don't stop there. Try to play them in any style you like. Hope you enjoy!

Richard

PS: For more lessons, check out the [Advanced Drum Lab](#) and my book [Drum Kit Steps Beyond](#).
